DETAILED ACTION

Response to Amendment under 37 C.F.R. §1.312

Upon reconsideration the previously submitted Amendment under 37 C.F.R. §1.312 which filed on 27 October 2010, such amendment has now been entered.

Information Disclosure Statement

The information disclosure statement (IDS) submitted on 10/27/2010 was considered by the examiner because this is the prior art cited by Examiner in Office action mailed on 1/10/2009 that was missing from the form PTO-892.

Allowable Subject Matter

Claims 12-22, 24-26 and 30-39 are allowed.

The following is an examiner's statement of reasons for allowance:

With respect to claims 37-39, the previously advanced restriction requirement is now withdrawn in view of the fact that the method claims depend from the allowed product claims and thus include all of the limitations of such allowed product. Note MPEP 821.04 wherein it is stated that where applicant elects claims directed to the product, and the product claims are subsequently found allowable, withdrawn process claims that depend from or otherwise require all the limitations of the allowable product claim will be considered for rejoinder. All claims directed to a nonelected process invention must require all the limitations of an allowable product claim for that process invention to be rejoined. It is also stated that a withdrawn claim that does not require all the limitations of an allowable claim will not be rejoined.

In as much as method claims 37-39 include all of the limitations of allowed claim 12 (claim 22 for method claim 39), these claims are allowable for the same reasons previously indicated for claim 12 (claim 22).
